

K-Love Radio Station is the only radio station I listen to and I never have to worry about what the content of the broadcast is. I has done nothing but enrich my life.

I am on the edge of the transmission distance for the nearest K-Love station and if LPFM broadcasting was permitted it would eliminate my chances of ever receiving a signal.

In todays ever changing and sometimes offensive broadcasting it would be a crime to eliminate the one thing that is still wholesome and free of offensive material.
